

## Health Information Delivery Solutions to Empower Connected Care

Successfully sharing information is at the heart of healthcare reforms and initiatives, and requires effective collaboration between all members of the care team and with patients themselves. Success means the information, independent of size, and whether structured or unstructured, can be easily exchanged with the entire care continuum. The exchange must be HIPAA-compliant, and in the right format to be used effectively—as part of the practical business of delivering improved care at reduced costs.

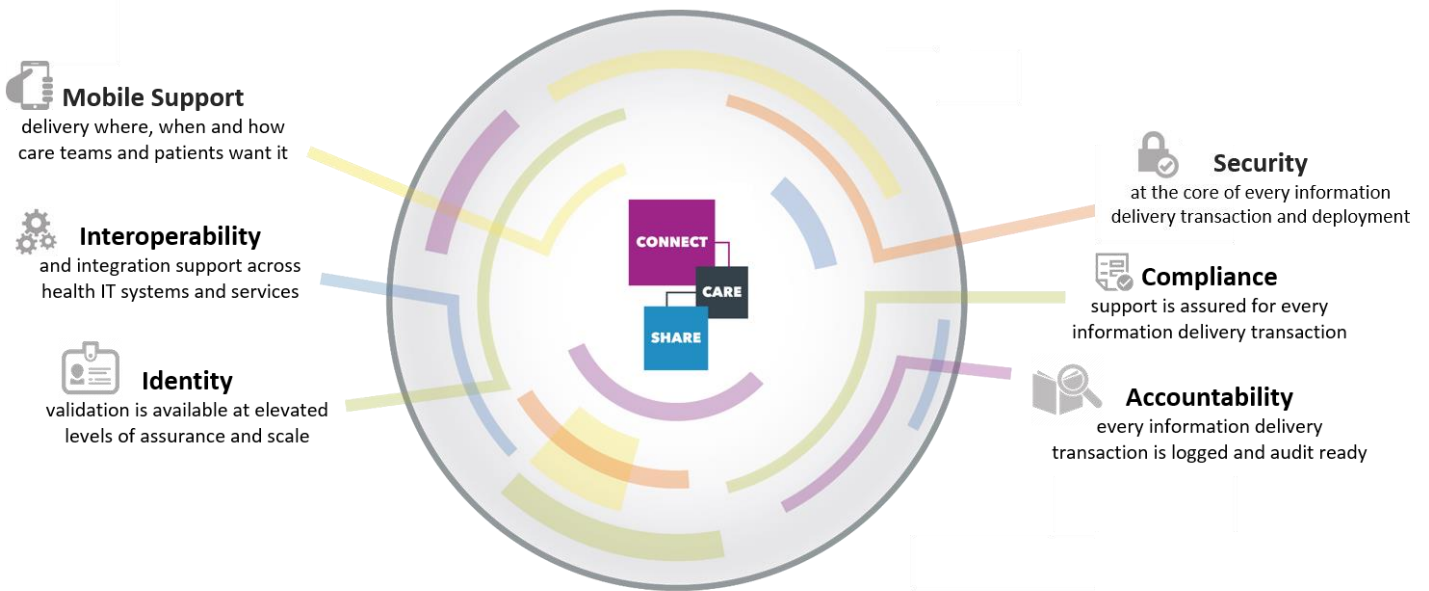

DataMotion Health provides health information delivery services and solutions for success with the following initiatives and connected health activities:

- ✓ Care Coordination
- ✓ Patient Engagement
- ✓ Privacy and Security
- ✓ Population Health
- ✓ Payment Reform
- ✓ EHR Interoperability
- ✓ Health Information Exchange
- ✓ Meaningful Use
- ✓ Affordable Care Act
- ✓ Process & Workflow Improvement

### DataMotion Health Platform

The DataMotion Health Platform is equipped with a comprehensive set of enabling service components for connecting and delivering health information successfully, securely and efficiently - every time.

### DataMotion Health Platform

Available as a cloud service or dedicated instance, service components are accessible to the healthcare enterprise, application developers and integrators.
